

Notre Dame Preparatory High School

Scottsdale, Arizona

CLIENT:

The Roman Catholic Church of Phoenix

DESCRIPTION:

Master plan design and renovation services were applied to an existing high school campus consisting of four classroom buildings, an administration building and cafeteria building.

New construction included a 1,200-seat gymnasium, 100-seat chapel and a 16-classroom building with amphitheater. Ten additional acres acquired provide softball, baseball and soccer fields.

We are continuing to provide master plan services for a proposed 20-year campus evolution.
