With majestic views of the Rocky Mountains, Cheyenne Mountain Colorado Springs is an ultimate resort destination. Located in Colorado Springs, it offers 316 guest suites with an array of amenities, including ample conference space, exquisite dining, a golf course, and a 35-acre lake with boating activities. Todd & Associates designed 60 new guest suites, 4 meeting rooms, pool amenities, and building renewal services for fire-damaged guest rooms and meeting rooms upon a need for expansion.

The expansion also included the addition/renovation of an outdoor terrace with mountainscape and picturesque views. The conference rooms at Cheyenne offer creative, flexible spaces to fit all clients' needs. Each space has a seamless blend of casual comfort and warm elegance.
