Todd & Associates worked with La Quinta Inn & Suites to serve as a corporate architect for several Western United States projects. Todd & Associates provided design, site due diligence, construction documents, and construction administration for 30 hotels in 8 states. The design aimed to refine and re-image properties to develop new prototypical site amenities, including exterior signage concepts and pool enclosures.

La Quinta Inn & Suites Ontario is an 8-story, 144 guest room high-rise hotel that offers guests a stress-free, comfortable stay. Whether one is traveling for business or leisure, they have an array of amenities that includes a fitness center, pool/spa, meeting space, and dining area with a café style feel. Each guest room offers a well-designed, open feel with additional interior amenities to make guests feel at home.
