

## GRAND CANYON UNIVERSITY

Mail & Fitness Center

Phoenix, Arizona

**Client:**

Grand Canyon University

**Typology:**

Mail & Fitness Center

Todd & Associates, Inc. has built a continuous relationship with Grand Canyon University designing buildings for its growing campus. In addition to the student housing community, Papago Apartments, this project included the design of a 2-story building with the mail center on the 1st floor and the fitness center on the 2nd floor. This space was created to provide notable amenities for the students living in this community.

Connected on the ground floor of Papago Apartments, the Mail Center features a lobby, service counter, key storage, copy room, open work area, along with a package check-in and storage. The second floor's fitness center is equipped with a cardio and free weights area, yoga studio, and fitness space for other aerobic classes. Unique to this campus, outdoor space includes a pool with a single-story pool restroom and pool equipment building.
