

GRAND CANYON UNIVERSITY

Golf Course Clubhouse

Phoenix, Arizona

Client:

Grand Canyon University

Typology:

Golf Course Clubhouse

The City of Phoenix selected Grand Canyon University to manage the Maryvale Golf Course Facilities. Todd & Associates collaborated with GCU to design a new clubhouse for their student-based golf team, with the idea of it being available to the public. The existing clubhouse was demolished, and the unique design encompassed a 19,327 SF, 2-story building with a basement.

The 9,258 SF 1st floor is open to the public and includes a lobby, pro shop, restaurant/bar, and a conference room. Outdoor entertaining takes place on the 3,068 SF deck. The 2nd floor is reserved for the Grand Canyon University Golf Team and includes a team room, 2 coach offices, lounge area, and storage room. The 8,614 SF basement level includes a golf cart storage area, bag room, break room, storage space, elevator, and laundry room.
