With a vision to reach and transform the lives of the community, Compass Christian Church has expanded its 25.3-acre campus. The new design expresses the church's commitment to the community by providing significant outdoor gathering spaces and amenities (Field of Dreams) linking the new worship center in the middle of campus to the student center (The Bridge) and the children's center.

The new 49,016 SF, 2,058 seat worship center was designed with the church's desire for a modern, authentic, open feel. A 3,077 SF café promotes fellowship and a sense of place/connection between the existing children's building and worship center. To improve Compass Church's street presence, enhanced signage, and a braided stream water feature were implemented in the center of the campus. Additional parking spaces were added to create a total of 1,192 spaces.
